HOW IT ALL BEGAN AND HOW IT'S GOING

JOURNEY FROM NSP TO LAWFREN (2023 - 2026)

Born out of NLSAT Self Prep (NSP) which was started in 2023 by a group of current NLU students and alumni to combat the severe lack of resources and widespread doubts following the inaugural 2022 exam we grew from a student led initiative into India's largest free NLSAT resource website and biggest Telegram community, receiving unprecedented reviews and enrollments.

Driven by overwhelming student demand for regular live lecture sessions, rigorous mock tests, and personalized mentorship, we officially evolved into Lawfren in 2025. The transition proved historic: in our very first batch, 1 in 2 Lawfren students successfully made it into an NLU for the 3-Year LLB. You can verify this incredible legacy by checking the toppers section of the brochure or by watching their unfiltered success interviews on our YouTube channel.

Did You Know?

We are only educators on Youtube who provide comprehensive full length lectures across topics and exams like NLSAT, CNLU ET, NLUO NAIET etc. Our goal is not to just create a cashgrab by providing redundant "how to?" guides on YouTube, but also to extend an helping hand to all the students who want to create a career in law.

During the NLSAT 2026 evaluation fiasco, it was only us who stucked with the students and drafted multiple representations to the Examination Cell at NLSIU. We are Students! We know what it means to be one.

Most Exhaustive Materials

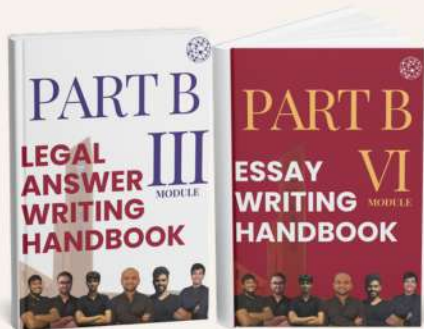

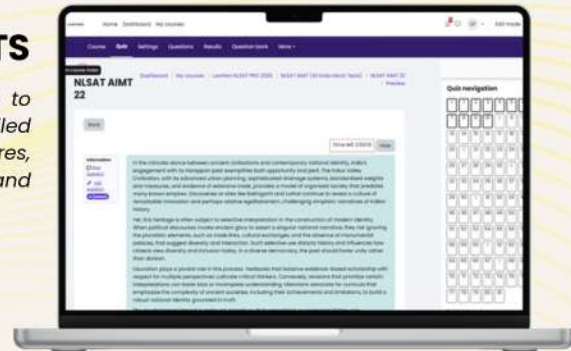

MONTHLY CURRENT AFFAIRS COMPENDIUMS

Our Current Affairs Compendiums are built specifically for NLSAT preparation through a comparative analysis of previous years' papers and recurring themes. Instead of overwhelming students with generic UPSC-style material, we focus on the issues and debates most relevant to law entrance examinations. Each monthly compendium is accompanied by dedicated MCQs and revision exercises for targeted practice.

ALL INDIA RANKED MOCK TESTS

Our flagship mock test series is hosted on a dedicated examination platform designed to simulate actual exam conditions. Students receive real-time national rankings, detailed performance analytics, answer evaluations, and personalized feedback. Advanced features, including multimedia-based questions and comprehensive review tools, ensure a realistic and data-driven preparation experience.

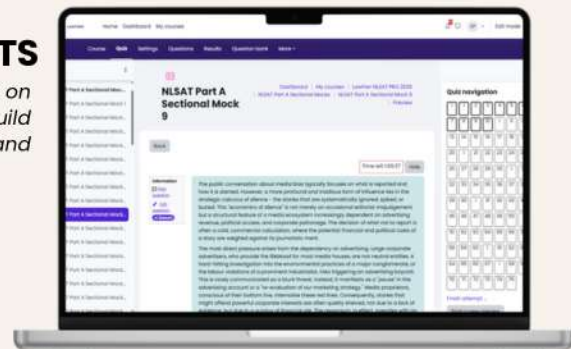

DEDICATED PART A & B HANDBOOKS (with solved PYQs)

Prepared by toppers, mentors, and our academic team, the handbooks cover every major aspect of NLSAT preparation across multiple modules. They include solved previous-year questions, structured theory notes, essay-writing frameworks, legal answer-writing guidance, and extensive question banks to help students master both Part A and Part B.

TIMED PART A AND B SECTIONAL MOCK TESTS

Beyond conventional question banks, our sectional tests provide focused, timed practice on individual topics and skills. Hosted on our online platform, these tests allow students to build speed, accuracy, and exam temperament while receiving detailed feedback and performance tracking after every attempt.

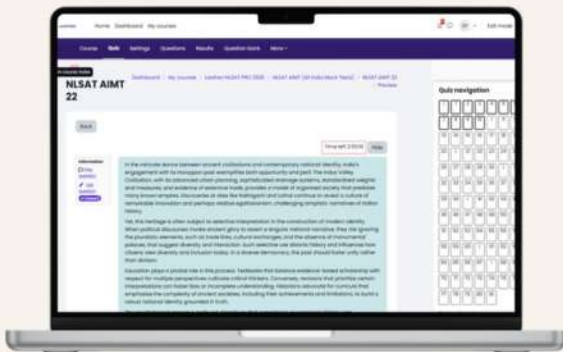

"Having prepared for NLSAT myself and later taught students using the same materials, I would strongly recommend looking beyond just the mocks and practice sets. What I found most valuable were the Part B Essay Compendiums and Legal Answer Writing materials. They do not merely provide answers; they teach a method of thinking. By breaking down recurring question patterns and providing frameworks to analyse issues through legality, morality, and policy, they help students develop the structured reasoning that Part B is truly designed to test."
